Seniors to See Campus

Specially Instructed College Student will Lead High School Visitors to Points of Interest.

Specially instructed College students are taking the visiting high school seniors through the College buildings and over the campus today to call their attention to some of the most interesting and special features for which the College is known. While a general all-inclusive tour over the campus and through the buildings has been arranged, student groups may elect to take specific trips to specific points of interest.

The guides have been working under the direction of Hugh G. Wales, of the faculty of the Commerce Department, who has aided them in getting facts and has worked out specific instruction sheets to help them in taking students over the most direct routes to the places of interest, where other students or teachers explain further or give specific information.

When the group of visitors have been assigned to the guide and he has registered the fact that he is taking a certain number of students from a particular place at the information desk, the party then makes a tour of the spacious Administration Building to visit the Library, Social Hall, the laboratories, art rooms, and other points of interest on each of the four floors of the building.

Leaving the Administration Building at the West Entrance, the guides point out the famous Pine Grove, the Memorial Drive, the College Park and the significant trees on this section of the Campus and then directs the way to the College Farm which is under the management of Roy A. Kinnard, chairman of the Agriculture Department of the College.

After seeing the farm, the modern buildings, special experiments and the stock, the groups are being taken along the south side of the old athletic field north of the Administration Building to see the plants and experiments at the Greenhouse. From there they will go to the Power Plant and the College Industrial Arts Building.

From the Industrial Arts Shop the seniors will be taken to visit the Residence Hall, where more

(Continued on page 8)

Newman Club Extends Welcome

The Newman Club extends a welcome to the visiting seniors. The Newman Club house for College girls, aims to provide as rich an environment as possible and to give the student a home-like atmosphere at a very nominal cost. Those living in the house are privileged to do light house-keeping, take their meals out, or to live according to a club plan. The Club also offers many social advantages.

The Club house, located at 311 West Third Street, is open to all guests of the day.

THE PRESIDENT SAYS

I know of no conflict of engagements that has caused me as much disappointment as the one which takes me away from Maryville Friday of this week. The North Central Association of Colleges and Secondary Schools, of which this college is a member, meets in Chicago. As you know, the College is recognized by the Association on its highest list of colleges and universities. You know, too, that the North Central Association is the foremost "accrediting" agency in the United States. So I feel it essential that I should be there.

However, the faculty and student body of the College will express the welcome which we extend to you high school seniors better than I can express it. There is no finer body of students in any college than those who are enrolled in this institution. The faculty compares favorably with that of any college of the same size. The state has provided equipment in the way of buildings, books and laboratories. The whole institution is the property of the state, supported by it for education beyond the high school.

We are glad to have you here. We hope you will enjoy the day and that it will give you a better idea of what the state is doing through this college, and of student life in Maryville.

UEL W. LAMKIN, President.

900 Seniors Here Today

Advance Reports Indicate Large Attendance at First High School Senior Day.

Advance reports show that more than 900 Northwest Missouri high school seniors will be at the College today in observance of "High School Day," an event planned especially for the graduating classes of the high schools in this part of the state.

The schools in attendance will represent every section of Northwest Missouri.

The four schools whose representatives have travelled the greatest distance in order to be present today are Mercer, Princeton, Cainsville and Ridgeway. Mercer, the most distant, is located one hundred miles east of Maryville.

Many schools are bringing large numbers of students representing their senior classes. Maryville will bring 79 seniors, Maysville, 48; Princeton, 45; and King City, 44.

This observance of High School Senior Day is the result of a plan proposed by Mr. Stephen LaMar, director of publicity at the College. Under his direction invitations were sent to the high schools of Northwest Missouri. Interest in the plan was shown by an immediate response from a large percentage of the schools.

The guests will be on the campus all day. The time will be used to visit the various classes, which will be in session as usual, and in viewing the interesting and educational points of interest to be found in and around the College. Tours about the buildings and campus will be conducted by a corps of College students who are familiar with the plan of the day.

The mid-day lunch will be served to the guests on the Country Club grounds unless rainy weather prevents. In that event the lunch will be served in the administration building.

In the afternoon the seniors will attend the Maryville-Warrensburg track meet which is being held on the athletic field.

Many of the departments of the College have arranged special exhibits for the day. Mr. Hugh Wales of the Commerce department is in charge of exhibits.

Dr. O. Myking Mehus of the Social Science department is chairman of the committee in charge of High School Senior Day.

1600 Students in County Chorus

More than 1,600 pupils of Nodaway county rural and elementary schools took part in a large county chorus in the College auditorium last Friday. Mr. C. J. Velie, chairman of the College department of music, directed the children in their selections, and Miss Ruth Tegtmeier, instructor of piano, was the accompanist.

At one o'clock, the hour set for the performance to begin, the

(Continued on page 5)

Residence Hall Busy Socially

With plans well under way for two of the outstanding social events of the Spring season, the Spring Formal and the Farewell Dinner for Seniors, the girls of Residence Hall may relax and look back upon the long list of gayeties of the past year.

Residence Hall opened the social season with a formal tea welcoming Miss Ruth Millett, Miss Ruth Tegtmeier and Miss Hazel Burns to the college faculty.

Then followed a series of gay social events. Formal dinners with faculty members as guests provided an opportunity for faculty and students to meet and chat.

And then there were the informal dinners with student guests invited by the girls of the Hall. Cozees around the fire place, with singing, dancing, and poetry reading filled many a cold winter evening with jollity.

And then there were the weekly pajama breakfasts, when one

(Continued on page 8)

Election of Officers

Students Vote Today for President and Vice-President of Student Senate.

Student politics for the school year 1934-35 will reach a climax today when the polls are thrown open to the balloting for President and Vice-president of next year's Student Senate. This will close the bi-faction campaign that has been waged both secretly and openly since it officially began with the nominations last Wednesday morning.

This year's campaign took a radical departure from previous years by reason of the uncontested nomination for student president, Dean Miller of Maryville being the only candidate placed in the field. Past elections have been so "hot" that at least two candidates

(Continued on page 4)

College Is Now 29 Years Old

At the end of this spring quarter the Northwest Missouri State Teachers College will have completed twenty-nine years of educational activity.

On March 25, 1905 Governor Joseph W. Folk authorized the establishment of a State Normal School, to serve nineteen counties which had formerly belonged to the first district.

Mr. Edmund McWilliams, present member of the Board of Regents, was appointed a member of the commission to decide on the location for the new Normal School. The commission selected Maryville and announced the tender on the part of Maryville and Nodaway County of 86 acres of land and \$58,000 in cash.

In a short time a board of regents was appointed which met in Maryville September 12 and effected an organization. Members of the first Board of Regents were: Charles J. Colden, Maryville; I. R. Williams, Savannah; A. H. Vandeventer, Bethany; William F. Ranken, Tarkio; James C. Tracy, Mound City; W. D. Rusk, St. Joseph; and William T. Carrington, State Superintendent of Schools, Jefferson City, ex-officio member.

At a meeting of the Board in St. Joseph, January 4, 1906, Professor Frank Deerwester of the State Normal School at Warrensburg was chosen president of the institution. The members of the first faculty were selected March 13, 1906.

Mr. George H. Colbert, Chairman of the Department of Mathematics, was a member of the first faculty. June 13, 1906 the first school session began in the Central School building. The total enrollment for this first nine weeks session was 273.

The fall term opened in the building on the Normal grounds known as the "Seminary Building," formerly occupied by the Maryville Seminary.

Mr. Homer Martien Cook was elected President of the College in 1907. Mr. T. H. Cook, instructor in the Department of Social Sciences, was chosen a member of the faculty the same year. The

Guide for High School Seniors

Art—Exhibit of Class Work on fourth floor.

Agriculture—Display of seeds and grain in room 222. Demonstration of methods for testing soil acidity at 2 o'clock in room 221.

Astronomy—Showing of slides at 10 o'clock in room 322.

Biology—Microscopic slides and other biological exhibits in room 220.

Chemistry—Display of apparatus used in organic chemistry in room 318.

Commerce—Speed tests in typing from 8:00-9:00, and in shorthand from 10:00-11:00 in room 206.

Geography—Exhibit of a planetarium in room 218.

Home Economics—Display of infant clothing in room 309. Demonstration of uses and cooking of cereals and sugar from 1:00-2:00 in room 311. Also dining room display.

Industrial Arts—Display on first floor of work done in shop.

Physical Education for Women—Demonstration of activities at 3:00 in the gymnasium.

Physics—Exhibit of apparatus in room 322.

Primary Training School—All classes open to visitors.

Psychology—Exhibit stressing physical side of psychology in room 224.

D. Blood Leaves

Mr. Dan Blood, manager of the College bookstore, has announced that today is the last time he will serve in his present capacity. Mr. Blood will leave next Monday to

DAN BLOOD

accept a position as accountant in a business firm at Winfield, Kan.

Dan, as he is known to all of the students, has been a familiar figure at the College for a number of years. He entered school as a freshman in the fall of 1928, graduated in the spring of 1932, and took over his present position in September, 1932. He is a member of the local chapter of Sigma Tau Gamma.

Mr. John Heath, class of '34, will take the position vacated by Mr. Blood.

As ABE Sees It

You visiting High School seniors—

If you're around next year you'll learn that I'm the fellow on the second floor, in front of the auditorium who knows all, sees all, hears all, but says nothing (only prints everything). This isn't to say that I see only misdeeds, but I award and give full credit to those deserving such.

This week an orchid goes to the following:

—To Georgia Schulte for surprising many with her dormant, or rather potential, musical talent.

—To the male quartet of the College for their splendid rendition of "Stay as Sweet as You Are" in front of the dormitory Thursday night, last.

—To Margaret Turney, who instead of breaking her arm in falling off a chair, merely sprained it.

—To Martha Venable for having retained the Sigma Mu pin of Paul Shell for some three months.

—To Nell Zimmerman for keeping her nerves under control. Rather had a hard time at the Senate's April Fool Party, tho, didn't you, Nellie?

I don't know how, but I just heard that June Morgan is really being hen-PECKED.

"Did you know," or "Believe it or Not," or "Strange as it May Seem" Virgil Woodside and "Chesty" Evans can shave before the same mirror at the same time! Shave space, eh, boys?

No, no orchid to Mary Powell for acquiring Bill Bills' Sigma Mu pin. We expected it all the time.

After searching many hours for Harry Lyle on the recent debate trip, he was found by his team mates in the YWCA building. He always was such a nice boy.

"Chub" Yates is really going to South America this summer. He took music appreciation so he could appreciate song, but there's no courses offered this quarter in appreciation of the remainder of

the triad.

Honest Abe says that every student should vote in today's election. But, he adds, *do the voting yourself!* Abe says that any person who comes up and grabs you by the arm with the intention of hustling you away to the polls is indirectly telling you that you are too dumb and lackadaisical to do it if no one prods you. Tell the ward-healers of both factions that you know how you are going to vote and that you are going to do it that way.

The seniors are having quite a time with their production, "A Midsummer Night's Dream" which they started to cast two weeks ago. It has been impossible to start rehearsals. It appears now that the play will be a big success as Nadine Wooderson signed up last Wednesday to play the part of a fairy. Nadine said she would rather play the part of an angel but being as the play did not require any angels she would take the next best thing which to her way of thinking was the part of the fairy. Abe heard some seniors trying to sign Marvin Borgmeyer up for a part but the only comment "Borg" would make was that he didn't want to be in the middle of a Summer Night's Dream. Personally, I think the reason the seniors are having such a hard time is because of the delayed arrival of spring. If spring would only arrive, then perhaps the seniors could get their minds on the summer and on their production, but until spring arrives I see little hope.

Flotsam and Jetsam—Professor Velie is having trying times these days . . . The spring contests mean a lot of work for him . . . Dan Blood is leaving us in a few days. The students will all miss seeing his flaming red head in the book store . . . "Fear Nothing" Crossan has promised to refrain from giving any more speeches this year . . . Many of the male hearts around the campus are fluttering today from some cause . . . Phelps said it was probably because of the large number of high school girls running around loose . . . Let's all attend the track meet this afternoon and see the Bearcats open their season in the right way.

—Kno Moore, D. O. S.

President Lamkin is in Chicago attending the meeting of the North Central Association of Colleges and Secondary Schools which meets April 11, 12, and 13.

Plans are being made for a Residence Hall Cozee Sunday evening.

David P. Max and J. W. Pierce, graduates of the College, were at the College Monday of this week. Mr. Max is superintendent of schools at Mound City, while Mr. Pierce is superintendent of schools at Skidmore.

Anton Lang, Jr. to Speak in St. Joseph

Anton Lang, Jr. son of the man who was three times the Christus of the "Passion Play," will give an illustrated lecture at the First Congregational Church, 13th and Jule Street, in St. Joseph, Monday, April 15 at 8:00 o'clock p. m., on "Life, Habits, and Customs of Oberammergau."

Mr. Lang, the outstanding authority available on Oberammergau, has had unprecedented opportunities for knowing the entire cast of the "Passion Play" because of his association with the most famous of the players.

He attended school in Oberammergau and for nine years went to the nearby monastery at Ettol. Following this he attended the University of Munich for two years, where he won a scholarship which brought him to Holy Cross University in Worcester. He graduated there and returned to the University of Munich for an additional year of study.

Mr. Lang then went to Goetting University in Prussia for more advanced study and also studied a year at Grenoble University in France. Georgetown University, realizing the unusual background for this young scholar, engaged him as Instructor in German and German Literature. Admission will be 50 cents.

Fred E. Vandersloot, a graduate of the College and principal of Benton High School in St. Joseph, writes that Benton is planning to send a track team to the Northwest Missouri track and field meet which is to be held in connection with the Spring Contests soon.

MUSICAL ACTIVITIES

Miss Ethel Field, senior in the College majoring in music, conducted a Nodaway county chorus at the devotional services of the First Christian Church in Maryville last Sunday night.

The chorus sang four selections *a capella* with fine effect, and its whole program illustrated what can be done in the field of adult education.

Miss Field was able to secure excellent shading with this group of untrained singers who sang with a fine feeling of the text and trueness of pitch which made their performance a real delight to hear.

The College quartet has been unusually active during the past few weeks. It has been unable to fill all the engagements because of conflicting dates. The four boys will sing before a meeting of the Kansas City alumni in that

city next Saturday evening for the second appearance on this group's program this season.

Miss Nell Hudson, registrar, is in St. Francis Hospital where she underwent a major operation Monday morning.

Social Events

Music Students Entertain in Social Hall.

Social Hall was filled with music, Tuesday evening, April 9, when several students from the conservatory were presented at the regular Half Hours of Music period.

Students presented were: Bernard Gelvin, Morris Vadon, Irene Heideman, Gwennyth Hicks, Marguerite Curfman and Edwin Tyson.

Miss Ruth Tegtmeyer and Mr. A. A. Gailewicz, faculty members, assisted on the program. Miss Tegtmeyer accompanied Irene Heideman and Edwin Tyson in their "two piano" selections. Mr. Gailewicz and Morris Vadon played two violin duets.

Student Affairs Committee Will Have Picnic.

The members of the Student Affairs Committee are planning a steak fry for next Wednesday at four o'clock. Faculty members to attend are: Dr. and Mrs. J. W. Hake, Mr. and Mrs. H. R. Dieterich, Mr. and Mrs. Stephen G. LaMar, Miss Margaret Stephenson, Miss Nell Martindale, Miss Blanche Dow, Miss Ruth Millett, Mr. Henry M. Alexander, and Mr. Hugh G. Wales. Student members are Louise Bauer, Francis Feurt, and Max Seyster.

A.S.A. Alumnae

Entertain Senior Members.

The Alumnae chapter of Alpha Sigma Alpha entertained the senior members of the active chapter Saturday, April 7, at the home of Mildred Hotchkinn. Bridge and a social hour followed the regular business meeting.

The Easter motif was carried out in spring flowers, tallies, and refreshments. Miss Margaret Sutton assisted the hostess. Senior guests were: Georgia Schulte, Erma Walker, and Jean Patrick.

Varsity Villagers' Council Plans Dinner.

Varsity Villagers' council is planning a dinner for all Villagers to be given at the Linville Hotel on Tuesday, April 30. Arrangements for the dinner include the use of a private parlor for the serving of hors d'oeuvres and canapes, and later after-dinner coffee.

Council members are: Charlotte Leet, Aletha Wharton, Faye Stone, Retha Sampson, Edith Wilson, Evelyn Hunt, Christine Black, Esther Spring, Elsie Beattie, Louise Parsons, Rosalie Lary, and Margaret Baird.

Tri Sigmas

Elect Officers.

The annual election of officers was held at a meeting of Alpha Epsilon chapter, Sigma Sigma Sigma, April 3, at the home of Miss Lucy Lloyd, Maryville. The officers for 1935-36 are: President, Virginia Coe; Vice-president, Mary Peck; Recording secretary, Helen Kramer; Corresponding secretary, Charlotte Clapham; Treasurer, Jean Montgomery; Keeper of the grades, Margaret Humphrey; Sentinel, Beatrice Leeson.

Sigma Sigma Sigma

Founder's Day Banquet.

Sigma Sigma Sigma will hold its annual Founder's Day Banquet on Saturday, April 13, at 6:30 at the Linville Hotel.

The decoration will be in red, white and blue. The alumnae, actives, pledges, and the mothers of the Tri Sigmas have been invited to the dinner.

Dorothy Sandison, president of

the local chapter, will act as toastmistress. The guests will sing patriotic and sorority songs. Miss Louise Gutting will sing a solo.

Sigma Sigma Sigma was founded by eight girls in 1898 at the State Teachers College at Farmville, Virginia. The sorority grew and became a national organization in 1911.

Alpha Epsilon Chapter was installed in the College in 1927. Miss Nell Hudson, registrar, is faculty adviser and Mrs. Gerald Stultz is social sponsor. There are fifteen actives and five pledges in the chapter.

Swimming Exhibition

Today at three o'clock the Physical Education Department will give a swimming exhibition in the College pool.

The first part of the demonstration will be devoted to the various swimming forms. The forms to be shown are: American crawl, Jessie Jutten and Lucy Mae Benson; elementary back stroke, Frances Morris and Susan Fleming; side stroke, Mary Presley and Mary Shoemaker; racing back stroke, Beatrice Leeson and Georgia Smith; and the breast stroke, by Elizabeth Adams and Billie Fern McLaughlin.

A demonstration of life saving will be given by Jessie Jutten, Georgia Smith, Beatrice Leeson and Lucy Mae Benson.

The girls' three o'clock swimming class will take part in a "King of the Oysters" race. Georgia Smith will tow 10 persons using the head carry. Mary Jean Pfander will give a diving exhibition.

Hall Lights

Residence Hall girls voted at Monday night's meeting to buy four dozen coffee spoons with part of the proceeds from the recent Carnival.

Pictures were taken of the girls at dinner Wednesday evening. These pictures are to go into a new Residence Hall booklet to be published soon. More pictures of activities and rooms will be taken Sunday.

Ping Pong has resumed its popularity as a pastime with the return of the table to the Solarium at the Hall. Roller skating is running in close competition since the beginning of warm weather.

THE DUST STORM

Do you remember the very mild dust storm on Thursday, March 28? If you were in the vicinity of the southwest corner of the second floor of the Administration Building at 3 P.M. on that eventful day you probably breathed into your respiratory system, in addition to copious quantities of dust, a great number of bacteria and other microorganisms.

At that time the biology department exposed several dishes about 4 inches in diameter for a period of three minutes. One of these dishes was then incubated for 24 hours and when inspected showed 42 colonies of bacteria, indicating that fourteen bacteria had fallen on the plate every minute.

All of the plates averaged over 12 bacteria or mold spores deposited per minute on a circular mold slightly less than four inches in diameter. Try to calculate how many bacteria fell on Maryville that day!

If it were not for the fact that most bacteria are harmless we would probably all be dead by this time.

College Calendar

Saturday, April 13—Tri Sigma Founder's Day Banquet.

Saturday, April 13—Kansas City S. T. C. alumni dinner.

Monday, April 15—Trip to Kansas City to see Helen Hayes in "Mary of Scotland."

April 19-23—Easter vacation.

April 25-27—High School Contests.

Friday, April 26—A. C. E. Spring Dinner.

Saturday, April 27—Alpha Sigma Alpha Spring Formal.

Monday, April 29—Short Course Begins.

Tuesday, April 30—Varsity Villagers Dinner.

Friday, May 3—Presentation of "The Creation."

Saturday, May 4—Sigma Sigma Sigma Spring Formal.

Friday, May 10—All-College dance.

Saturday, May 11—State Track meet at Springfield.

Saturday, May 11—Sigma Tau Gamma Spring Formal.

Saturday, May 11—Pi Omega Pi banquet.

Sunday, May 12—Sigma Sigma Sigma May Breakfast.

Friday, May 17-18—May Fete.

Friday, May 24—Residence Hall Spring Formal.

Saturday, May 25—Sigma Mu Delta Spring Formal.

Sunday, May 26-29—Commencement Week.

Sunday, May 26—Baccalaureate.

Monday, May 27—Senior Class Day.

Tuesday, May 28—Senior Play, "A Midsummer Nights Dream."

Wednesday, May 29—Commencement.

Wednesday, May 29—Alumni Banquet.

Wednesday, May 29—Close of spring quarter.

Old Age Pensions

The Missouri house passed the old age pension bill Tuesday with drastic changes made on the bill passed by the Senate recently. The bill will probably go into a conference committee. As the bill now stands, no single person owning property to the value of \$1,500 and no married person owning property to the value of \$2,000 is eligible to receive the old age pension. The rate of aid is \$30 a month for the single person and \$45 for married couples more than seventy years of age. County boards will administer the funds. Estimates are that the funds will amount to two million dollars a year.

Relief Bill.

At last the much-argued relief bill has been passed in Congress and signed by the President. By placing his signature on the bill, the President has launched the greatest plan of relief yet instituted by our country. The past relief administration has been in the greatest need during the past few weeks. The passage of this bill directs 125 million dollars

for immediate relief. Another sum of 30 million dollars is directed to the Civilian Conservation Corps for the continuance of this large body of workers.

Danzig.

The Nazis failed to gain control of the "free city" of Danzig in the election Sunday. Danzig by tradition, is German, and Germany has been seeking to gain control of it.

Aid to Education.

A 96 million dollar relief program for the two or three million jobless youth in this country between the ages of eighteen and twenty-four was recommended this week in a report sent to the Senate by Secretary Perkins. An allotment of \$8,100,000 to education would keep 100,000 students in school who are otherwise unable to pay fees and other necessary expenses.

A BETTER CHANCE

The high school seniors who expect to graduate this spring will soon find themselves confronted with that problem which sooner or later puzzles every young person who looks with care to the possible outcome of his youthful ambitions; the question of just how much educational training he should have to most advantageously pursue his career.

The answer to that question is not simple, and it must eventually be decided by the student himself after a thorough study of the occupation in which he wishes to engage, but it is highly desirable that he lose no valuable time in starting to consider the problem.

Of course the immediate question (and for that matter the whole question) is, just how much education will be advantageous? The answer to that puzzle can most readily be found in a definition of the word "advantageous." Without going into complex dictionary terminology we could very correctly say that "advantageous" means "to be in a superior position." In that definition lies the key to the puzzle of whether or not the high school senior can afford to spend any more time in school after he graduates this spring.

Then we can readily see that the ambitious young person will want to get at least enough education to put himself in a superior position in relation to his contemporaries. How much education is that? This cannot be sure; *it must be more than that possessed by the average person.* If the average person has a grammar school education, a high school degree is necessary to be in a superior position; if the average person is a high school graduate, a college degree is necessary to be in a superior position. We must always be one step ahead of our competitors.

To be one step ahead of your competitors today means that you must have a college education. In this day of democratized education almost everyone is able to graduate from high school; a secondary education is looked upon as a common right and heritage. So there is no special advantage in graduating from high school; but that is where the homogeneity of opportunity ends.

Only about two percent of our young people graduate from college and thus it is that small percentage which places itself in a superior position. If the students in that small group have made proper use of their opportunities they will find themselves head and shoulders above their contemporaries in the work which is to follow.

EDUCATION AND PROGRESS

One of the most impelling motives which activates the American people today is the desire to keep pace with the times; to modernize, revamp and rehabilitate any of those things which seem to have momentarily fallen behind in the ceaseless march of progress. With a touch of pride we have taken up that dynamic motive, "he who hesitates is lost," and have individually and collectively bent our every effort to a rapid furtherance of modernism, hoping that we might thereby make certain of pursuing

our forward course with the least possible hesitation and the resultant loss which that hesitation entails.

From that philosophy and its stimulated activity has grown the intricate economic and political scheme which, imperfect though it is, has served as a basis on which to build one of the greatest of present day structures; our American civilization. With that philosophy we have transformed an uncharted wilderness into a civilized nation, a nation where the throb of commerce and industry has been attuned to the vital needs of a higher culture. Forests have been converted into books, tools and homes; vast natural resources now furnish the driving force for a new industrialism, and wide, virgin prairies yield to the plow in the production of food for a growing population. We have tamed our physical environment and made it work for us; in that measure our philosophy has been the core of the most phenomenal short-time progress that any single group of society has ever made since the dawn of history.

But the Utopia which we vision is not to be gained by a mere physical subjugation of the geographic factors with which we are constantly in association. We must do more than harness the waterfalls and till the soil; those labors alone are not the basis of a cultured civilization. There yet remains the final task, the job of achieving an understanding and a regulation of these physical results so that their intended beneficence will provide common ground for a happier and more worthwhile existence for every citizen.

Such a task is not only a challenge to the nation as it is today; it is likewise a challenge to even the best possibilities of future intelligence and understanding which our nation and its people possess. Nothing short of the fullest use of our capabilities will suffice to solve this new problem which our past progress has created. We must learn swiftly or die of our own economic fecundity.

Then how are we, the young men and women of today, to answer this challenge; how are we to develop our ability to solve those problems which so mutually concern the welfare of ourselves and our society?

Education is the answer to our question. Education alone can provide the knowledge and the trained minds which are so vitally needed to solve these complex problems which beset us; education alone can provide that new philosophy which hereafter must govern the more complex relations of man to man. By that agency alone will we be able to develop an intelligent citizenry whose mental, moral and physical strength will be able to overcome the obstacles which have confronted our powerful but unenlightened civilization.

A GOOD IDEA

When this year's intramural commission conceived the idea of awarding medals to the members of the winning intramural track teams it struck upon an idea which should go far toward increasing a healthful student interest in competitive sports. For a long time there has been a real need of developing a sports interest on the part of those students who are not able to win a position on one of the major teams representing the college. This new plan for giving awards should go a long way toward providing the necessary incentive for that interest.

P. S.—But suppose they spend a few pennies to fix the backstop so we would not have to chase every other pitched ball.

VOTE TODAY

Every student in the college should make sure to express his vote in the election today. From the standpoint of student government this is the most important day of the year, the occasion of selecting the two students who will guide the policies and activities of the Student Senate for the school year of 1935-36. Failure to vote in this important election is an almost inexcusable error on the part of any student, and would certainly be good reason to bar that same student from future voting if such a thing were possible under our constitution. The thing to do is to exercise your privilege now and thus to help determine whether or not the student affairs for next year will be carried on in the manner which suits you best.

Huey Long's campaign for a "chicken in every pot" is getting everyone in a stew.

The large number of imported baby carriages and bassinets just goes to prove that the tariff doesn't protect our "infant" industries.

If it's true that "in the spring a young man's fancy lightly turns to thoughts of love," then "spring fever" must be the disease a fellow has when he starts running a temperature at the sight of every good-looking "spring chicken" which he chances to encounter.

Election

(Continued from page 1)

were nominated for the position in every instance.

Miller is qualified for the position because of his executive ability and wide friendship. He has been active in intramural sports, student affairs, and is now president of the junior class.

The real contest of the campaign is in the choice for vice-president. Max Seyster and Warren "Pat" Crow, both of Maryville, were nominated for the position.

Seyster is a junior and has been active in student life during the past three years. He has been a member of the Student Senate, president of the freshman class, and a member of the College baseball team. At the present time he is vice-president of the local chapter of Sigma Tau Gamma, social fraternity.

Crow, also a junior, vies with his competitor in scope of activity while a student in the College. He has been a member of the intramural sports commission, a writer on THE MISSOURIAN staff and has twice served on the Student Senate.

A measure of sport was added to the meeting when Glenn "have no fear" Crosson, expert on politics, muskrat farming and first-basing, raised his voice in a mighty filibuster. His sonorous voice droned on and on, despite the protests of such eminent politicians as Gerald "Smoothy" Rowan, Hal Bird, Bud Green and several others, until he had finally completed his learned dissertation amid the "boos" and cheers of the audience. There is now a rumor afloat to the effect that the filibusterer was hired by a local organization which is greatly interested in creating unusual publicity. However, those charges have not yet been definitely proven.

From the very first day of his enrollment in the College, a student is a member of the most important organization on the campus—the Student Government Association. As the name implies, the students in the institution govern themselves through their representatives who work hand in hand with the administration and faculty of the College.

In Article II of the student government constitution are the purposes of the association, which include: 1. To cultivate loyalty to our College; 2. To encourage and maintain high standards of life and scholarship; 3. To inculcate and foster College ideals and traditions; 4. To co-operate with the governing bodies of the College in all matters pertaining to the welfare of the student body, within the jurisdiction of the association.

Legislative and judicial powers of the association are vested in a student senate composed of the president and vice-president of the association, and three members from each of the three upper classes elected at the beginning of each fall quarter, and two members from the freshman class, elected at the beginning of the winter quarter.

Election of the president and vice-president of the association is by secret ballot and the candidates are voted on by the entire student body. The secretary-treasurer of the association is nominated and elected within the senate. All executive officers are elected for a term of one year.

Section 2, Article VI of the Association Constitution reveals the duties of the students' representatives on the senate. It is the duty of the senate to promote and

regulate student activities, and to be the responsible governing body for the students of the College, under the powers granted by the administration, the Board of Regents, and the laws of the State. It has the power to make by-laws and enforce and carry out all rules and regulations made and adopted under the powers thus conferred upon it.

The senate has control of all general campus activities; the calling of association meetings to consider matters of general concern; all student social functions under an activity calendar; and all student parades and rallies. Other powers vested in the senate include: the granting of approval, in conjunction with the president of the College, for the solicitation of funds, or for the raising of funds in any manner for the student body; the granting of permission for the formation of new organizations of any sort.

College elections are under the control and supervision of the senate, whether they be class or organization. The senate has charge of the discipline of students who violate senate regulations. The senate has control of the seating of new members to the cabinet, as well as the power to expel any member of the senate upon failure to execute his duties, or for any other good and just reason. The Senate is always in co-operation with the administration.

Any member of the association has the privilege to appear before the senate at a regular meeting, for any legitimate purpose, and the senate must grant him a hearing.

President of this year's Association is Francis Sloniker; vice-president is Vernon Green; secretary-treasurer is Louise Bauer. Members of the senate at the present time include: Seniors: Gerald Stigall, Stanley Gex, James Ottman; Juniors: Harold Person, Barbara Zellar, Densil Cooper; Sophomores: Kenneth Manifold, Louise Bauer, James Stephenson; Freshmen: Frances Feurt and Harlan Farrar.

A social committee, appointed by, and working with the senate, has charge of all the school social functions, makes the social calendar, and sets the standards for social affairs. Social affairs sponsored by the committee this year have been the Bearcat Hop, the Thanksgiving Dance, the Christmas Ball, the April Fool Party, walk-out day activities, movies, and social dancing classes.

Several graduates of the College who are teaching in the Nodaway County schools were at the College Tuesday evening of this week to attend the finals in the County Contests. Mr. Ernest Stalling, principal of the Burlington Junction High School, presided.

It is reported that Olin Teasley has the measles. Mr. Teasley is a graduate of the College and principal of the high school at Cameron.

Miss Mildred Mumford, a former student of the College now in school at Tarkio, has recently been employed as a secretary in Rock Port. Miss Mumford has been in school at Tarkio College this year. She and her mother, Mrs. M. A. Mumford were at the College recently.

W. P. Green, a graduate of the College who is teaching in St. Joseph was at the College for a brief time Tuesday evening of this week. He is interested in having the St. Joseph S. T. C. alumni dinner. Mr. Allen Fore, a graduate of the State University, was with him.

County Chorus

(Continued from page 1)

auditorium was filled to capacity. Many were unable to hear the chorus because the auditorium would not hold the large crowd that journeyed to Maryville last Friday.

Jean St. Clair, Morris Yadon, Louise Lippman, Beatrice Lemon, Edna Mary Monk, Helen Gaugh, Esther Spring, and Elizabeth Adams were members of the string ensemble which assisted the chorus.

W. H. Burr, county superintendent of schools, reports that the chorus last year, which contained 1,200 pupils, and the one this year were the largest groups of choristers from any county in the state. Mr. Burr also said that nearly every county in the state is now conducting group choruses of this kind.

The program Friday afternoon was as follows:

Opening chorus, "Sing a Little Song When You Are Happy," all grades.

"A Perfect Little Lady," Mary

Jo Wilson, Fairview school, taught by Eda Porch.

Rhythm orchestra, grades one and two, Lincoln school, taught by Betty Rimel.

Chorus, "Toyland," "The Owl" Musical reading, Miles Witty. Central school, taught by Mrs. Herman Miller.

Union township chorus.

Tap dance, Martha Ann Shanks, Elm Grove school, taught by Mrs. Frank Sims.

Duet, Avis and Beatrice Turner, Harmon school, taught by Lawrence Wilson.

Minuet, Washington school, taught by Miss Brown.

Play, Bloomfield school, taught by Buster King, winner of Union township contest. Title of play, "The World's Agin Her."

Solo, Geraldine Palmer, Central school.

Chorus, "The Sandman," and "Over the Heather."

Mixed dancing program presented by Mrs. Ethel Bloomfield's dancing class.

Chorus, "Lullaby," "Partner Come and Dance With Me," grades seven and eight.

Duet, Bloomfield school pupils,

taught by Mrs. Phyllis Townsend.

Minuet, Dougan school, taught by Miss Ruth Florea.

Closing chorus, "America, the Beautiful," all grades.

Last Saturday afternoon the high school choristers of Nodaway county gathered in the College auditorium and sang to a large crowd. Several special numbers were included on the program.

The program given last Saturday afternoon follows:

"Flow Gently Sweet Afton," "Sweet and Low," "Stars of the Summer Night," County chorus.

Cornet Solo, Ralph Manning of Skidmore.

"A Capital Ship," Boys' Chorus.

"Swing Along," County Chorus.

Girls' Quartet composed of Fern Hopkins, Marcella Hopkins, Margaret Kyle, and Gwendolyn Burch, all of Graham.

"Swing Low, Sweet Chariot," "Carry Me Back to Old Virginia," "Dixie," County Chorus.

"When Grandmother Dreams," Girls' Chorus.

"Summer Winds Blow," County Chorus.

Marimba Solo, William Tebow, Maryville high school.

"Bells of St. Mary's," County Chorus.

Harp Solo, Aleta Burnam, College High School, Maryville.

"Now the Day is Over," County Chorus.

Several of the College faculty members are planning to attend the Greater S. T. C. Alumni Association dinner which is to be held at the Ambassador Hotel, Broadway and Knickerbocker Streets in Kansas City Saturday night, April 13, at 7 o'clock. The College quartet, Yadon, Somerville, Lawrence and Woodside, is to sing. This is the Second Annual Dinner of the Kansas City Chapter of the College Alumni Association. Ferd L. Masters, president of the Kansas City group and Miss Florene C. Allen are helping with general arrangements.

Plans have begun for the Varsity Vilagers' Banquet to be given April 20.

29 Years Old

(Continued from page 1)

new administration building was compelled in 1910 and Dr. H. K. Taylor became President.

Mr. Ira Richardson was elected president in 1913 and served until 1921 when Mr. Uel W. Lamkin became president of the College.

In 1919 the State Legislature passed a law changing the name Normal School to Northwest Missouri State Teachers College. At this time it became possible for the school to grant the degree of B. S. in Education.

Since then the school has developed rapidly. Appropriations for a women's dormitory were made by the State Legislature in 1921. New buildings have been erected during the years and the institution has continued to grow, in number of students, courses offered, and number of faculty.

Huron College, London, Ont., is the smallest college in the world — its enrollment totals 20 students.

When two is company I don't make a crowd

I'm your best friend

I am your

Never a bitter, undeveloped top leaf in me. Never a grimy, tough bottom leaf. I use only the fragrant, mellow, expensive center

leaves . . . the leaves that give you the mildest, best-tasting smoke. I do not irritate your throat. No wonder I'm your best friend.

LUCKIES USE ONLY THE CENTER LEAVES . . . CENTER LEAVES GIVE YOU THE MILDEST SMOKE

They Taste Better

Intramural Sports Offer Keen Competition For All

The Intramural Sports program of the College offers to every college man the chance to compete in his favorite sport, whether or not he is of varsity caliber. There is a wide choice of sports offered in this program. This year contests were sponsored in basketball, ping-pong, tennis, golf, horseshoes, and softball. Next year it is probable that soccer, swimming, volleyball, and track will be added to the list of sports. Medals are given to the members of the winning team in each sport, and to the individuals in the individual contests.

While there has long been intramural sports on the campus, the present system of organization did not come into being until the 1933-34 school year. In this year the first Intramural Commission, a body of four students, was selected to manage the affairs of intramural competition. This organization contributed a great deal toward the establishment of the league on a permanent basis. James Stubbs of Chillicothe was the first Commissioner of Intramurals. Other members of the first Commission were Fred Cronkite of St. Joseph, Warren Crow of Maryville, and Kenneth Manifold of Coin, Iowa. This group was responsible for launching the first comprehensive intramural program.

This year, John Ford has been Commissioner. Warren Crow, Albert Gray of Clearmont, and Walter Wade of Maryville have served on the Commission. A broader program was undertaken this season.

Basketball has proven to be one of the most popular sports offered. Fourteen teams of nine men each played in the tournament which was a divided round-robin affair. The championship went to

the Midgets, a team organized and managed by Lawrence Phelps and Glenn Marr. There were all-star teams chosen at the close of the season. A year ago the championship fell into the hands of Gray's Basketeers, a fast aggregation of Nodaway County boys. The Gray's were unable to repeat this season.

Softball is also a popular sport. Over one hundred men are playing in the league this spring. Last year the championship was annexed by the Sigma Tau Gamma Fraternity with the Puritan Club rating second best.

Tennis, horseshoes, and ping-pong rank as the most popular of the individual sports. There was no winner declared in the tennis tournament this fall due to the untimely death of Ferdinand Glauser, one of the outstanding players. There will be another tournament this spring.

The fall horseshoe title was won by Joseph Reece of Savannah. Tom Carlton was the runner-up. There are plans underway for more and better horseshoe pits for this spring's competition.

The first Intramural Ping-Pong Tournament was won by Harold Person of Maryville. He has lost only two games in the whole year's play. There were over forty players in the tournament.

The Intramural League was formed to give every man an opportunity to play. Play is necessary to do efficient work or study. Sports are valuable both for their aid to physical and mental development. The Intramural is doing a fine piece of work in fostering sportsmanship and the spirit of play and recreation.

INTRAMURAL STANDINGS (April 10, 1935)

Midgets	3	0	1.000
Mules	2	0	1.000
Sigma Taus	2	0	1.000
Sigma Mus	2	0	1.000
Gexbirds	1	3	.250
Potwallopers	1	3	.250
Eradicators	0	2	.000
Tigers	0	2	.000

Tarkio Here In Dual Meet Apr. 16

Dust and cinders will fly and there will be screams of the Owls mixed with the growls of the green and white Bearcat when all is cleared away April 16. Either the Tarks or the Bearcats will be the winner in their annual Track and Field dual.

Tarkio is coming with the same strong team that last year won the MCAU championship for them. Only one man was lost from that team. So it will be champion against champion, and only the final score will decide the winner.

Having their strength in the field events the Tarks will be sure of several points in both the discus and shot, while the Bearcats will probably win the 100 and 220-yard dashes. However, these few events will not decide the final outcome, so be there and see who will win.

The meet will start at 2:30 on the College Field, next Tuesday afternoon.

Mr. and Mrs. F. L. Barman, of Maryville, have announced the arrival of a second son to whom they have given the name, Gerald Robert. Mrs. Barman has her Life Diploma from the College and formerly taught at Coin, Iowa, and in the St. Joseph school systems. She is a sister of Mr. Lamar of the College.

ORVAL JOHNSON
1935 Bearcat Basketball Captain

Elect Captains

Lettermen on the College athletic teams elected two team captains at a meeting held last week.

Orval Johnson was elected honorary captain of the 1934-35 basketball team in recognition of his excellent work throughout the season.

Albert Gray, half miler and member of the relay team, was elected captain of the 1935 track and field team. Gray is a senior and a three-letter man in track.

Johnson, a junior, has won two letters in basketball, both of which were earned in the dual capacity of guard or forward, playing which ever one the occasion demanded. This year he was given a berth on the second team selected by the M.I.A.A. sports writers.

Those who will go to Kansas City Monday, April 15, to see Helen Hayes in *Mary of Scotland*, which will open at the Schubert Theatre Monday are: Mrs. Janet Sue Hicks, Helen Kramer, Helen Cain, Estel Dack, Francis Shively, Jean Patrick, Louise Bauer, Nella Rose Hoffman, Georgia Schulte, Erma Walker, Margaret Humphries, Francis Feurt and faculty sponsors: Miss Margaret Stephenson and Miss Ruth Millett.

Residence Hall girls filled a large box with dresses, shoes, and bats for distribution among needy families by the Community Center.

Twenty Active Student Organizations on Campus

Upon every college campus there are various organizations which have been organized to promote outside activities among the students. Our College has at present, twenty active organizations on the campus. Each of these organizations deals with one aspect of college life, which helps to round out the students' education.

The organizations are divided into three classes. There are clubs, honorary fraternities, and social fraternities and sororities. One of the outstanding clubs on our campus is the YMCA. The purpose of this club is to spread Christianity throughout the world. Members of high school Hi-Y clubs usually become members when they come to college. One of the big undertakings of this organization is its gospel team work. In the past few years the YMCA has sent out a gospel team once a month to conduct services in some church in the Northwest Missouri district. A like organization for women is the YWCA. The association here is a member of a vast international movement. Many of the recreational activities of this organization are held at the Y. W. "Hut" in the College Park.

The Women's Athletic Association sponsors athletics for college girls and includes the following activities: soccer, hockey, volleyball, basketball, swimming, baseball, tennis, track, and hiking. The "M" Club is an organization made up of men who have earned letters in College athletics.

There are three College pep organizations to back the Bearcats in all their activities. These organizations are: the Green and White Peppers, a women's organization; Growlers for men; and the Barkatzes, to which both men and women belong.

The purpose of the Social Science club is to give college students an opportunity to discuss modern social questions.

The O'Neillians is the name adopted by the Dramatics department for its club activities. The O'Neillians put on one-act plays monthly and study the technique of good acting.

Those interested in Industrial Arts have a club which meets once a week to discuss new de-

velopments in that field. Girls in the College who are interested in primary education have formed a club known as the Association for Childhood Education. This group undertakes various projects during the year, such as the Primary Operetta given each spring.

The girls at Residence Hall have a self-governing body which sets the rules for the Hall. Similar to this is the organization for students living at the Newman Club.

The boys who work in the kitchen and dining room at Residence Hall have formed an organization which they call the Hash Slingers Union.

Students interested in art find the Art Club ready to take them in as members. This is the oldest departmental club on the campus.

Those interested in music will find several organizations to welcome them as members: the *a capella* choir, band, orchestra, glee clubs, chorus, and college quartette.

Honorary fraternities and sororities are:

Kappa Omicron Phi—a national honorary Home Economics sorority. Pi Gamma Mu—a national honorary fraternity devoted to the social sciences. Alpha Phi Sigma—national honorary fraternity fostering superior scholarship in secondary schools and colleges. Alpha Epsilon Psi—professional public school music fraternity. Pi Omega Pi—honorary commercial fraternity.

There are two social fraternities and two social sororities on the campus of this institution. The Sigma Tau Gamma is a social fraternity for men and has a house located at 523 West Fourth street. The Sigma Mu Delta is a social fraternity for men and holds its weekly meetings at 203 West Seventh Street.

The social sororities on the campus are Alpha Sigma Alpha and Sigma Sigma Sigma. Neither of these organizations has a sorority house this year. Their weekly meetings are held in the College building.

The Northwest Missouri State Teachers College provides Preparation for Success in ANY FIELD

The College at Maryville was established primarily for the training of teachers. If you expect to teach, it offers advantages which many other schools cannot present. In addition, the first two years at Maryville will give preparation for other fields, as well as for teaching, and College credits are accepted and given full value in all other standard colleges and universities.

Last September a new curriculum was outlined for those who want a general education, either as preparation for some specific field, or in preparation for a fuller life after leaving college. These courses are offered as well as those which have hertofore been given.

Courses of Study

The College offers curricula leading to the degree, Bachelor of Science in Education, which carries with it a life license to teach in the public schools of Missouri. These curricula are arranged for those who are to teach in the different fields.

It also offers a Bachelor of Arts degree, which may be earned, as may the Bachelor of Science in Education degree, on the completion of a four year course of study. The Bachelor of Arts degree does not require the professional subjects required in the Bachelor of Science in Education degree, and follows closely the requirements of Bachelor of Arts degrees offered by other colleges and universities.

At the end of two years of college work, a limited teaching license may be obtained, if certain prescribed courses have been satisfactorily completed.

For information regarding specific requirements for these certificates and degrees, write for a bulletin outlining them.

In addition to the courses heretofore given, which the College will continue to give, there are offered four general or comprehensive courses in the fields of the Biological Sciences, the Humanities, the Physical Sciences, and the Social Sciences. These with certain prescribed courses in English will constitute the basis or core of a general education in the first two years of the College. Each of these general courses except English will run through two quarters and will carry 5 hours credit.

These five comprehensive courses are designed to prepare for advanced work in the junior and senior years, will meet requirements for other professional work, and will give excellent preparation to those who do not expect to go further in their college career. They are also designed for those who want a "general" college education and are not expecting to specialize in any particular field.

You Can Go to School for Less at Maryville

The cost of nine months of school at Maryville may be kept within \$250.

The total fees for the year's school will amount to only \$54.50, and this amount covers all enrollment expense, admittance to certain athletic events and college entertainments, hospitalization if needed, use of a locker, and all books.

Board and room is very reasonable in Maryville. At Residence Hall, unquestionably the best place for women students to live, board and room is available at the rate of \$60 for each three months' term. In town, table board may be obtained at \$3.50 per week, and rooms may be obtained at an average price of about \$2.00.

The maximum cost for the term (12 weeks) need not exceed \$86.00, as follows: Fees, \$17.50; textbooks, \$2; board and room, \$60.00; laundry \$4.00; incidentals, \$2.50.

Social Activity

All the usual activities which mean so much to a student will be found at Maryville. Dramatics, Debate, Band, Orchestra, Vocal Music Ensembles, Religious Organizations, Fraternities and Sororities, groups organized around common scholastic interests, pep squads, all have their places on the campus and in the life of students. Scholarship is emphasized in every way, but a certain reasonable amount of other than classroom interest is desirable—and is to be had at a minimum expenditure of money, time and energy.

Students in the College are encouraged in every possible way to develop initiative, personality, leadership and character traits becoming good American citizens. The opportunity for social recreation and development at the College is unusual indeed. While social activities are arranged to allow the greatest amount of freedom as to choice and interest on the part of the student, yet they are very carefully organized and cultivated for the protection, development and general welfare of the student.

Student social activities range from informal hikes, steak fries, hayrack rides and cabin parties to formal teas, dinners, dances and parties. Some of the social highlights of the year include: The Junior Prom, Residence Hall Carnival, Faculty Reception, The Tower Ball, the Sorority and Fraternity Formals, the regular All School Dances, the regular Residence Hall parties, the All School Christmas Formal, the Class Parties, the Club and Organization Dinners, Rush Week Activities, the Homecoming Parties, Dad's Day, Mother's Day, and Commencement Week Activities.

The Northwest Missouri State Teachers College

Uel W. Lamkin, President Maryville, Mo.

To See Campus

(Continued from page 1)

than a hundred College girls live. At the Residence Hall the students visit the College Cafeteria, the Conservatory of Music practice rooms, and the Parlors.

When the groups leave the Residence Hall they make their way to the College Gymnasium by way of the "short cut" across the campus, north of the President's Residence, the new Lake, the Tennis Courts and across the Rustic Bridge near the west Birches. On the way to the Gymnasium they note the trees along the College Drive and along the Long Walk, the Sun Dial, the lawn and setting for the annual May Festivals, and the location

for more tennis courts and playground activities.

Students are being given opportunity to see the Gymnasium, which is one of the best in the state, with its excellent swimming pool, offices and classrooms and a playing floor second to none. From the Gymnasium they go to the new athletic field, which is located in a perfect and natural setting and equipped for night games and night track meets, and then by way of the west walk to the Administration Building.

Mr. and Mrs. Charles H. Knapp of Easton have announced the arrival of a new baby girl to their home. The young lady was born last Friday morning. Mrs. Knapp is the former Miss Martha Pfeiffer of Maryville and is a graduate of the College.

Busy Socially

(Continued from page 1)

could sleep late and don lounging pajamas to linger over coffee and conversation.

Such fun was equaled only by the hilarious indoor picnics when milk bottles served as candle sticks, and paper plates and tin cups were in order, and when fortune telling, tap dancing specialties, and impromptu dramas added to the gaiety.

The Christmas season brought its usual round of colorful festivities. Christmas week was officially heralded by the customary Hanging of the Greens Ceremony. Then followed a whirl of gay formal affairs, the annual Christmas buffet supper for fac-

ulty guests, the formal Christmas reception on Sunday evening, and the final Christmas dinner for the girls of the hall, after which the girls presented their gift to the Nursery School.

Besides the dancing every evening from seven until eight o'clock, there were the Halloween and Valentine parties.

And then the thrilling race for queen of the annual Residence Hall Carnival, with all its fun and frolic in side shows, fortune telling, freaks, main show and dancing.

No wonder the Dorm girls say goodbye reluctantly to such colorful gaieties, and yet look forward to the coming events.

Miss Ruth Millett read poetry at the meeting of YWCA Tuesday, April 9, in Recreation Hall.

ALUMNI

Miss Dorothy McCord, B. S. 1930, is teaching mathematics in the Memphis High School, where she has taught for several years. This year she is sponsor of the senior class of the high school and is coaching the senior play. She is also busy helping students who are to take part in the Northeast Missouri High School Contests which are to be held at Kirksville soon. She reports that she hopes to attend the College Alumni Banquet this spring.

H. Roe Bartle, nationally known Scout Executive and a speaker of note, is to give a short address at the S. T. C. Alumni Dinner in Kansas City Saturday night.

—so far as we know tobacco was first used about 400 years ago

—throughout the years what one thing has given so much pleasure..so much satisfaction

It was a matter of pride with a host in Colonial days that his guests should smoke tobacco grown on his own plantation.

Today the Governor of North Carolina says to the Governor of South Carolina—

“Have a cigarette”

TODAY people all over the world use tobacco in one form or another.

They chew it, they smoke it in pipes, they smoke cigars and cigarettes, and here is what an eminent physician said about cigarettes:

“I have been something of a student of cigarettes, and it is my belief that they offer the mildest and purest form in which tobacco is used.”

Yes, nowadays the cigarette is the most popular form in which tobacco is used. A good cigarette certainly gives men and women a lot of pleasure.

Have a Chesterfield—

For one thing—they're milder.

For another thing—they taste better.
